

THE DIRECTOR OF
CENTRAL INTELLIGENCE

National Intelligence Council

12 January 1983

NOTE FOR: ADDO

25X1

FROM : Henry S. Rowen, C/NIC

This is the paper on the reliability of the East European forces I mentioned to you at the Director's staff meeting the other day. This is my version (not yet or maybe never version) that will emerge from the Community process.

As I said at the meeting the subject seems to me to be of enormous importance and much neglected. Any comments are welcome.
